Section 1: Informed Consent

The following document will use the term “child/children” to refer to anyone aged 5-18

To be reviewed by all parents/guardians with the Referral Worker. Please check after discussed to acknowledge:

- The child **must** be living with the Applicant (parent/guardian) prior to attending the program and after program.
- Shared custody:** other parent/caregiver(s) must be informed of the child’s attendance to the program
- Children aged 5 – 18 attend the Learning Centre (near the adult group rooms) while the parent/guardian(s) attend day program at Kackaamin. After hours, parents are responsible for the care and safety of their children and youth.
- Children participate in outdoor activities, age-appropriate healing and wellness activities. Snacks are provided during program hours. Priority for children attending the Family Program is to regulate/learn self-regulation, safety & boundaries, reconnect with their family, and establish strong routines. This builds a sense of safety and security, which is needed for children’s ability to learn effectively.
- School-based education is guided by our teachers throughout the program for approximately 8 hours per week (during regular school season).
- The parents/guardians are responsible for bringing weather-appropriate clothing, toys and other care needs for their child (Tylenol, etc.). Kackaamin will have some items to loan such as limited toys and board games.
- Family Focus: **Children and youth are to be supervised at all times.**
- Family Focus:** safe parenting is one of the main focuses of the Family Program. The Parent/guardian must be willing and able to participate and receive feedback and guidance from the team.
- Children/Youth should be informed that there is a no-device policy at Kackaamin.** It is strongly encouraged that parents support their child to gradually reduce screen time before attending, so they are not struggling to adapt when program begins.
- Parents are in the lead of their children’s learning.** Kackaamin will share tools and teachings, but ultimately it is up to the parents to support the children on their healing journey.
